- ❖ This adjustable crutch accommodates small children, tall adults and every height in between.
- ❖ With more than eighty different adjustments, the click lock telescoping supports provide fast and easy fittings.
- ❖ Within seconds this crutch can be reduced to a mere 27 inches in length providing compact convenience for traveling by car, plane or storage when not in use.
- ❖ The axillary support swivels and locks allowing multiple positioning options for the users comfort.
- ❖ This crutch can be converted into an adjustable cane, saving you both time and money.
- ❖ Weighs only 2 ounces more than the Guardian Quick Fit.
- ❖ The only fully adjustable crutch.
- ❖ Supports up to 500lbs of patient weight
- ❖ Made in the U.S.A. by Texas Medical Industries, Inc.

This revolutionary crutch allows reversal of the axillary pad increasing the versatility, fitting and positioning options available.

Close the crutch completely for easy storage while traveling.
